Still the cheapest delivery rates in the UK

Dear customers,

Last year we made BIG changes to our delivery charges. Following feedback that our shipping rates were too high. After reviewing this further I am pleased to say that we still have the cheapest delivery rates in the UK.

At Target Transfers we are committed to ensuring the best service and the best quality product for our customers. That is why we have these changes to ensure we provide the best value shipping rates in the UK for Heat Transfer Vinyl, Print & Cut Media and Heat Press Equipment.

We offer....

- ✓ **Free shipping on all orders over £100.00 excl VAT to the UK Mainland**
(Excludes Fusion heat presses)
- ✓ **Orders under £100 now have a reduced next day delivery charge to the UK mainland, just £6.50 + VAT**
- ✓ **Guaranteed same day despatch on all orders placed before 5pm**
(Stock items only)

These are the cheapest next day delivery rates for the UK mainland. We've also changed some of our other delivery charges, to see all of our delivery options visit the Target blog.

I would like to thank everyone for their feedback and for continuing to choose Target as your material and machines partner.

Please find in this brochure a range of textile vinyls and print & cut media that will suit all of your transfer printing needs. Amongst this selection of materials, you will find a solution for decorating all types of fabrics and garments, including Cotton, Polycotton blends, Spandex, Polyester and even Nylon.

Kind regards,

Martin Borley
Managing Director, Target Transfers

New Products

NEW Weeder

Page 27

An absolutely essential product. Let the LED light the way.

For use with any CAD-CUT® and Print and Cut material. Proven to be faster and more accurate than craft knives and tweezers.

SuperTEK Opaque 2.0

Page 19

Perfect for sportswear

Decorate light or dark-coloured fabrics with this lightweight, stretchable heat transfer material.

With an incredibly soft hand and the ability to stick to even the toughest fabrics, like Lycra®/spandex and nylon, it's perfect for performance apparel and sportswear. Thanks to the innovative adhesive, STiX2™, SuperTEK™ Opaque applies to almost any material, and its low-temperature application helps prevent scorching on technical and synthetic fabrics.

SuperTEK™ Opaque 2.0 has now arrived, even lighter than before! Our new formula has reduced the weight to 50 microns, down from 100. While still maintaining the characteristics you have come to know and love.

SuperTEK Clear Matt 2.0

Page 21

Thin, Clear, Soft and Stretchable

Printable, thin and lightweight clear polyurethane film with patented Stix2 adhesive - sticks to anything. Has great stretch and recovery, with soft hand.

Single step application ideal for white or light coloured performance fabrics.

CAD-CUT® TEXTILE VINYL

CAD-CUT® TEXTILE VINYL

* Alternative STAHL'S brand names in the market place.

IDEAL FOR DETAIL

What is SportsFilm and why should you be using it?

Stahls' Sportsfilm is the best value material for decorating your everyday textiles and garments. It also works great on light-weight active garments. Due to its durability, you can create detailed designs that are easy to weed.

Big improvements have recently been made to the application time for the Sportsfilm range. You now only need to fuse your designs with a heat press for 5 seconds. And you can peel back the design while still hot.

Sportsfilm is available in 35 different colours, with many variations on each shade. It is available to purchase by the metre or the roll. Making it perfect for users of all capacities.

Save 18% and get free shipping

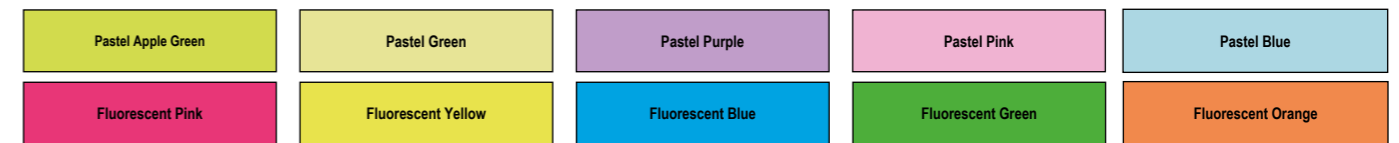

The most effective way to purchase Sportsfilm is by the roll. When buying a 25m roll you will save 18% per metre. Over a 25m roll, this is almost 5 free extra metres. All rolls ordered of Sportsfilm now get free next day delivery, the best value rates in the UK.

Ordering less than a roll? You can still get free shipping on all orders over £100.00, Next day delivery for just £6.50 and guaranteed same day despatch on in-stock items. Full details here.

Size 500mm wide rolls	1m	5m	10m	25m
Standard Colours Cost per metre	£5.70	£5.50	£5.30	£4.70
Fluorescent & Pastels per metre	£6.25	£6.05	£5.85	£5.25

Pastel & Fluorescent Colours

Recommended Fabrics
100% cotton
100% polyester*
Poly/cotton blends
(*Always test first on coated polyester)

Application Instruction
Temp: 160°C
Time: 5+ seconds
Pressure: Medium (#4-6 on Hotronix®)
Peel: Hot

Multi-Colour Designs
Apply background for 2-3 seconds, peel carrier warm/cool. Repeat for additional colours. Finish with final application of 5 seconds. Peel hot.

Accessories Required
Weeder, Cover Sheet

Ideal for cutting fine detail! 500mm wide x 25m rolls.

Print & Cut

Sportsfilm is also available in our Print & Cut range. Matt, printable digital media perfectly suited for printing smaller details and can be cut after a very short drying time. Suitable for most available textiles and offers great stretchability.

Also available with free next day delivery.

Thin and durable, semi-glossy film material, perfectly suited for cutting smaller-medium detail. Easy to weed, enhancing profitability. Soft hand pressure sensitive, medium tacky backing.

Available by the metre or in full rolls.

CAD-CUT®
Premium Plus™

Thin, stretchable & elasticated! 500mm wide x 25m rolls.

ELASTICATED

The most advanced Heat Transfer Vinyl material on the market

If you are creating garments with stretchable material or decorating performance wear, Stahls' Premium Plus is the Heat Transfer Vinyl you need. The vinyl has high stretch and rebound so that it can move and adapt to the garment. You can decorate with fine detail and still get a soft matt finish. This vinyl can be used on the following Cotton, Poly/Cotton blends, Polyester, Lycra and Spandex.

Premium Plus is available in 35 different colours, with many variations on each shade. It is available to purchase by the metre or the roll. Making it perfect for users of all capacities.

Available exclusively from Target Transfers.

Save up to 17% and get free shipping

The most effective way to purchase Premium Plus range is by the roll. When buying a 25m roll you will save up to 17% per metre. Over a 25m roll, this is almost 4 free extra metres.

All rolls ordered of Premium Plus now get free next day delivery, the best value rates in the UK.

Print & Cut Media

Why Print & Cut Media?

A comprehensive selection of media materials for all users. In this section, you will find all the Printable Products you could need, in both short and wide formats.

Our range of products will heat apply to both light and dark fabrics and garments and will accommodate all of your transfer printing needs. These media materials will run through a variety of machines, and our Print and Cut materials are suited to many of the leading printers, including the Roland Versacamm, Mimaki JV3, and a selection of Mutoh, Uniform Seiko and HP Printers.

The Inkjet Medias are best purchased by the roll and will provide you with a solution to your transfer printing needs.

Quality

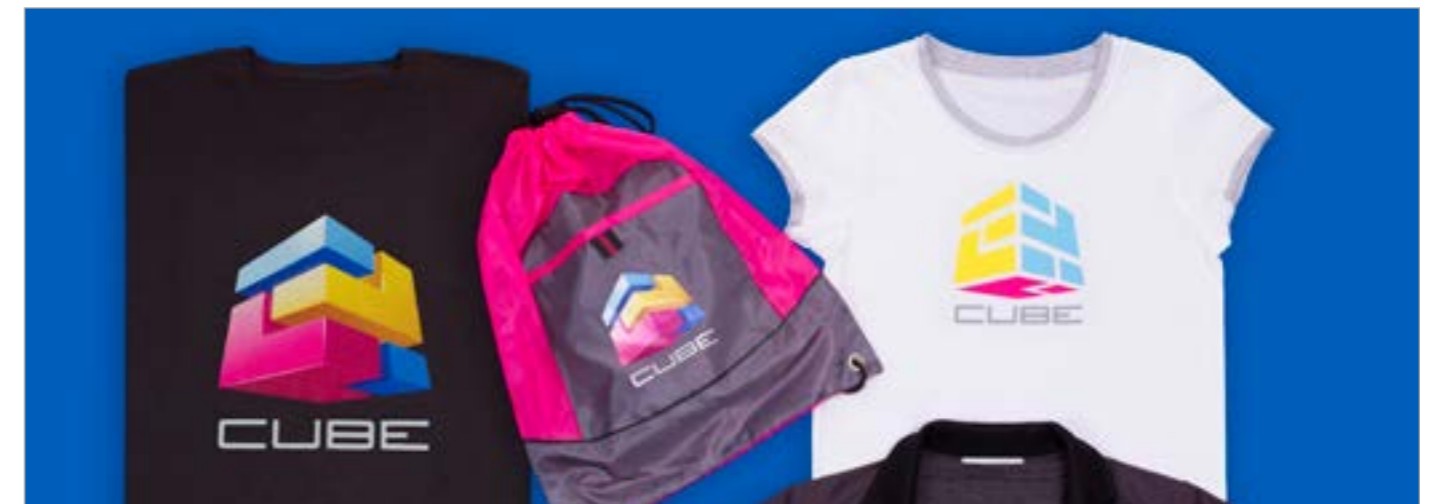

Printed transfers last just as long as direct-printed garments and often provide a more attractive finish that feels part of the garment.

Press on demand

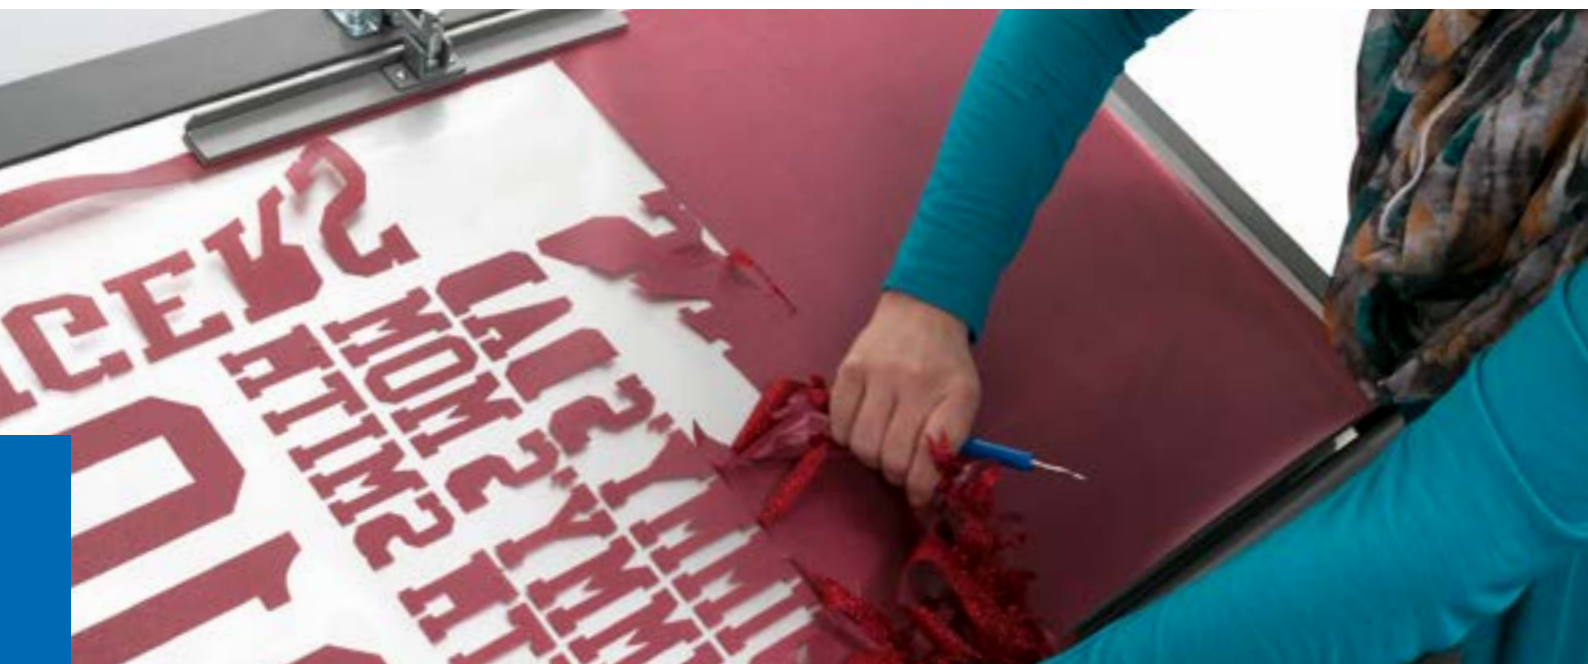

If you are unsure how many of a particular garment you will need to make then screen printed transfers take the risk out. You only need to provide the size/ wash care label to the garment as and when you need it. If you do not use the transfer on your current range, they will be ready for the next one.

Same day despatch

Order from Target Transfers and you get same day despatch on in-stock items. With the most competitive delivery rates in the UK.

STAHL'S

Get 80% more productive when weeding

Dear customers,

Weeding large detailed designs with Heat Transfer Vinyl can be an arduous task, especially if there are multiple copies of the design. Well, the Stahls' group has been listening, because we share your frustrations.

That's why the EZ weeding table has been developed. Heat transfer materials release from their carriers when heated, so this patented table heats materials and keeps them at a consistent temperature to promote removal from the carrier. Meaning easier weeding with less material breakage, resulting in big time savings.

Key points:

- 50cm x 91cm (20" x 36") weeding area
- Three temperature settings - 110° for finely detailed designs up to 130° for maximum productivity on larger jobs
- Top clamp holds materials in place while weeding
- Fits most production tables and counter tops
- Rounded edges for operator comfort
- Rests flat or at one of four incline settings
- Tool holder keeps your EZ Weeder™ handy
- Built-in storage compartment
- Compatible with standard 110v outlet

Actual weight: 12kg (27 lbs)
Shipping weight: 13kg (28 lbs)

FIRST SUB BLOCK WITH 4 WAY STRETCH

Decorators have been asking for a printable heat transfer material that stretches, feels soft and prevents dye migration. Stahls' CAD-COLOUR® SuperTEK Sublistop™ is the answer they've been waiting for. Manufactured with the world's first charcoal-based adhesive on the market today, ONYX STiX2 adhesive inhibits polyester based dye migration while providing ultimate stretch and recovery of your designs and logos. This technologically advanced adhesive makes it possible to apply SuperTEK Sublistop to any technical fabric including Lycra®/Spandex, polyester and nylon

Weeding Tools

An essential tool for use with any CAD-CUT® and Print and Cut material. Proven to be faster and more accurate than craft knives. Weed detailed designs quickly and accurately with Stahls' weeder and tweezers. The weeder is now available with an LED light.

Item	Size	Code	Price
EZ Weeder	Each	013695	£10.00
EZ Weeder with LED	Each	163399	£20.00
Stahls' Tweezers	Each	163400	£4.50

Squeegee

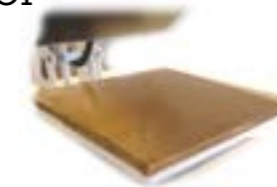

SQUEEGEE: A must have for applying print and cut mask smoothly and evenly without bubbles.

Item	Size	Code	Price
Squeegee	10 x 8cm	013696	£2.00

Quick Slip Protector

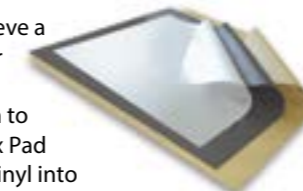

This is a fitted non-stick coated cover sheet that fits over the lower platen. Not only does it help to protect the lower platen but it also makes it easier to slide garments on and off. Available in 6 sizes.

Item	Size	Code	Price
Quick Slip Lower Platen Protector	15 x 25cm	560010	£35.00
Quick Slip Lower Platen Protector	20 x 25cm	560015	£37.00
Quick Slip Lower Platen Protector	28 x 38cm	013677	£38.00
Quick Slip Lower Platen Protector	38 x 38cm	013674	£40.00
Quick Slip Lower Platen Protector	40 x 40cm	013675	£42.00
Quick Slip Lower Platen Protector	40 x 50cm	013676	£47.00
Non Slip Protector Upper Cover	40 x 50cm	125288	£53.00

Release Paper and Cover Sheets

Use Gripflex Cover Sheets to achieve a textured matt finish to vinyls after pressing. Non-stick coated cover sheets produce a high gloss finish to vinyls after pressing. Use Grip Flex Pad with Nylon materials to bed the vinyl into the weave of the fabric, also helps diminish dye migration. Use Release Paper to protect your heat press platen and garment when pressing.

Item	Size	Code	Price
Release Paper	A4 x 50 sheets	560021	£5.99
Release Paper	A3 x 50 sheets	560022	£11.99
Release Paper	38 x 38cm 12 sheets	560020	£5.95
Non-stick Cover Sheet	49 x 46cm each	013683	£14.00
Gripflex Rubber Pad	46 x 56cm each	013686	£25.00

Heat Tape - Thermotape

Safety first, if it's too hot to handle use heat resistant tape. Use to keep any design or various design elements created either with media paper or vinyl in position on a garment while heat applying. Ideal for the application of small transfers and for use with cap presses.

Item	Size	Code	Price
Heat Thermotape	9mm wide x 66m long	013688	£6.00

STAHL'S' HOTRONIX®

The world's most advanced heat press just got smarter

HOW DID THE WORLD'S BEST-SELLING HEAT PRESS GET EVEN BETTER?

By Adding Wireless Technology So You Can Manage Your Business From Anywhere.

Track heat press usage

Make sure you're getting the most out of your heat press. Track how much time your heat press is working vs. sitting idle.

Discover the productivity of each heat press

Access real-time reporting and adjust your production capacity as needed.

Track the performance of each employee

Gain insight into when and how your employees are working, if there are any application issues, and manage permissions for accurate application without added supervision.

Follow total impressions

The FUSION IQ™ measures every preheat and every heat application so you stay up-to-date on the number of times your heat presses were engaged.

Utilise pre-set applications for popular items

Eliminate mistakes by using factory installed pre-sets, or create your own to accurately apply the types of transfers and films your customers are ordering.

Set up exceptions

See how many times an operator went outside a pre-set application. Avoid production missteps to maintain the quality and durability of your products.

Every Hotronix® FUSION® will come equipped with the new FUSION IQ™ control board that features advanced wireless technology, allowing you to interact with your heat press anywhere at any time with the web-based portal.

PLEASE READ

Terms & Conditions

1. ALWAYS TEST BEFORE GOING INTO PRODUCTION ON COATED TEXTILES AND NYLONS.
2. Always store your vinyl in it's original packaging in a dry warm place, do not subject to extreme cold or moisture at any time.
3. The Company's liability for damages under this contract shall in no case exceed the purchase price of the goods claimed to be defective. If goods supplied by the Company fail to conform to the express terms of the order, the Company shall have the option of bringing the goods into conformity with the order requirement or taking them back and refunding the price. All sales are final. No goods shall be returned to the Company without the Company's written permission. Goods returned without the proper authority will be returned unopened (uninspected) to the customer and the customer held liable for costs involved in reshipment. Claims must be made within FOURTEEN working days of the date of despatch of the goods by the Company (UK mainland) in writing.
4. No claim for damages or short delivery can be entertained unless notified to the Company or the carrier within 24 hours of receipt, and confirmed in writing within five days. Claims for non-delivery must be notified to the Company in writing within 21 days of invoice date. In the case of goods consigned overseas, the buyer should notify the Company of any complaint in writing within 28 days of delivery and/or invoice date.
5. The Company cannot be held liable for, and the buyer shall hold the Company harmless against, any expense or loss resulting from the infringement of patents, trade marks, registered designs, or copyright, arising from compliance with the buyer's designs, specifications or instructions. The buyer shall be responsible for, and shall at his/her expense, indemnify and defend the Company against all claims founded upon the legal effects and use of any words, designs or devices, which the buyer may order or be imprinted or placed on the goods notwithstanding that the Company may have been consulted thereon or performed artwork or other special services in connection therewith. The Company shall not be responsible to the buyer for any use made of its products so as to infringe any patent or registered design or copyright.
6. Free Delivery is available for the UK Mainland only on orders of Heat Transfer Vinyl, Print & Cut Media and Smaller Heat Presses only. Please contact us for delivery rates of our other product ranges. To qualify for same day despatch the products must be in stock with us and your account must be trading within the agreed credit terms. Although we are always competitive with our lead times on custom print, we cannot include it in this scheme. Garments, Application and Die Cut Letters & Numbers are also not eligible for this time frame.

Full Terms and Conditions available upon request.
